

**On the 1st of June 2005, only 45 years old Levas Bekeris, potter from Lithuania, died.** So terribly sad. In the end he did not win his physical and mental fight against his illness.

**We initiated two actions:**

1. To compose a “*book of friends*” to remind Levas. People who have known Levas fill the book with photo’s, stories, thoughts, songs, dreams, drawings...

2. To produce a *professional publication* about his work. This is a beautiful wooden box with (20-25) postcards of his work, a CV, introduction and some text about his work. Because the cards can be used as postcards, his work will still go around the world and people won’t forget.
